THIS BOOK—the fifth—continues the genealogical record of the Wildbore family, containing the tenth, eleventh and twelfth generations. . . . . Revisions and corrections in previous volumes are shown in the Addenda section.

ERRORS AND OMISSIONS

In the compilation of a work of this kind, data is obtained from many sources. This data in many cases is recorded in family bibles, public records, etc. Often the penmanship—none too good when done—has, with the passing years, become difficult to read. Every possible effort has been made to reconcile all differences and secure the actual facts. Notwithstanding, errors and omissions will be discovered. We will appreciate hearing of any such, so that the corrected data may be printed in a later volume.

IMPORTANT—CONSULT INDEX IN ALL VOLUMES

Read This Explanation Carefully:

This record is the largest and most comprehensive of an American Colonial family, in all its branches, ever compiled.

It lists from 75,000 to 100,000 individuals, descendants of one man or allied by marriage with these descendants.

To identify each individual, an efficient system of indexing is essential; therefore, this explanation to assist those not familiar with genealogical recording.

Each individual has an individual number. This number is preceded by a letter. The letter indicates the generation, thusly: Samuel Wilbore, the original emigrant, is "A," or the first generation; "B" is the second generation, Samuel's children; "C" is the third generation, Samuel's grandchildren, and so on through to "M," the thirteenth generation.

Notwithstanding the vastness of this record, the listing of many families is incomplete or are totally lacking. Information pertaining to these families is coming in all the time.

Such data, when possible, is included in its proper sequence; if received after the record has been printed, it is shown in the Addenda section, with the later generations shown in their proper place.

(a) in the index indicates that the individual's record is in the Addenda in the volume in hand. (b) in the index, that the record is in the Addenda and also in the regular text of the volume in hand.

Tracing backward from an individual listed in the later generations, it is important to consult the index in each volume to insure getting such data on earlier geneartions as may be shown in the Addenda and not shown in the regular text in the books covering the early generations.

BOSTON PUBLIC LIBRARY

A FAMILY TREE CANNOT BE COMPLETE. There are always new families, likewise many old ones of which the individual members are indifferent as to recording and preserving their genealogy, even when this may be done without any expense to them.

Therefore, we have in addition to the record as printed in this and the preceding volumes, records more or less complete of several hundred families and also data pertaining to many individuals. These we have not been able to connect with the main family tree and include in the printed record. This, because of a bit of missing information or some error in the earlier record as supplied to us.

New material is coming to us almost all the time and we have completed many families and expect that we will be able to complete many more.

All these records, while not published, are available to anyone interested, who will write us. If you do not find the record you seek in these books, write us for we may have it.

Later, all these records, with what may be added thereto, will be made available to future research workers, through deposit in easily accessible public libraries.
